

# Rubiomonocoat BIOCLEANER

**DESCRIPTION:**

**RMC Biocleaner** is an organic cleaning product. It contains no acids, VOCs or phosphates. **RMC Biocleaner** is non-flammable and kills bacteria. It does not damage clothing or synthetic materials. **RMC Biocleaner** can be used on all washable surfaces, and does not corrode.

**APPLICATIONS:**

- Cleaning of RMC Oil application equipment (brush, paintbrush, hard floor cleaner, industrial tape, spray gun...).
- Removing fresh RMC Oil stains on clothing or shoes (by hand or in the washing machine).
- **RMC Biocleaner** can also be used to clean tiled surfaces (in bakeries, butcher's shops, self service establishments, friteries, industrial kitchens or restaurants...), cooker hoods, mechanical parts, and soot incrustation...

**IMPORTANT:**

Never use **RMC Biocleaner** to clean surfaces treated with a Rubio Monocoat finish.  
Use a product from our range of maintenance products: RMC Soap, RMC Surface Care, RMC Soap Satin. See product profiles.

**INSTRUCTIONS FOR USE**

Industrial production line machines: run the pump with undiluted **RMC Biocleaner**, until the deposits clogging it have been completely cleared. Rinse in clean water before resuming production.

Manual equipment: soak the equipment (brush, paintbrush) in undiluted **RMC Biocleaner** until all grease has been removed. Rinse in clean water before re-using equipment.

Clothing and shoes: rub the fresh stain gently with a cloth soaked in **RMC Biocleaner**. Where the garment is spattered with stains, wash in the washing machine on a 40° minimum cycle; with 200 ml of the product.

**RMC Biocleaner** can be used undiluted or diluted:

Unit of RMC Biocleaner	Unit of water	Application
1	0	- Machines on industrial production lines, pumps, spray guns... - RMC Oil Application brush. - Surfaces which are heavily encrusted with oil and grease...
1	¼	Mechanical parts, soot deposits, cooker hoods...
1	1.5	Nicotine staining on walls and ceilings.
1	4	Synthetic materials, kitchen and bathroom surfaces.
1	10	Carpet cleaners.

You are advised to perform a test on a section which is not visible.
